

MFA Report — Deploy Fix ·

MANUS_DEPLOY_FIX_2026-05-10

Commit: d766e10 · jamesalg/alg-website · main

Build: 78 pages · 0 errors

Date: 2026-05-10

Staging: <https://staging.archipelagolighting.com>

§ A — Root Cause

Commits 845ee4b (landing pages) and ec3dea6 (rebate center) were local only. The `git push` step was missing from both prior sessions. Remote `origin` was already correctly pointed at `jamesalg/alg-website.git` ; no remote fix was needed.

§ B — URL Reconciliation

§ B1 · Product Landings (no change)

All 5 product landing pages remain at `/products/*` . No URL changes required.

Page	URL	Status
Indoor	<code>/products/indoor</code>	200 · HIT
Outdoor	<code>/products/outdoor</code>	200 · HIT
Lamps	<code>/products/lamps</code>	200 · HIT
Residential	<code>/products/residential</code>	200 · HIT
Safety & Controls	<code>/products/safety-controls</code>	200 · HIT

§ B2 · Verticals → Solutions (8 pages moved + renamed)

Pages moved from `src/pages/verticals/*` to `src/pages/solutions/*`. Slug renames applied per brief.

Old slug	New slug	Status
<code>/verticals/cold-storage</code>	<code>/solutions/cold-storage-grocery</code>	200 · HIT
<code>/verticals/data-center</code>	<code>/solutions/data-center</code>	200 · HIT
<code>/verticals/education</code>	<code>/solutions/education</code>	200 · HIT
<code>/verticals/government</code>	<code>/solutions/government-military</code>	200 · HIT
<code>/verticals/healthcare</code>	<code>/solutions/healthcare</code>	200 · HIT
<code>/verticals/hospitality</code>	<code>/solutions/hospitality</code>	200 · HIT
<code>/verticals/industrial</code>	<code>/solutions/industrial-manufacturing</code>	200 · HIT
<code>/verticals/retail</code>	<code>/solutions/warehouse-logistics</code>	200 · HIT

Breadcrumbs updated in all 8 pages: `VERTICALS` → `SOLUTIONS`, `href="/verticals"` → `href="/solutions"`.

§ B3 · Legacy Safety-Controls Page Deleted

`src/pages/solutions/safety-controls.astro` (old serif italic stub) deleted. 301 redirect added: `/solutions/safety-controls` → `/products/safety-controls`

§ B4 · Rebate Center (no change)

`/support/rebate-center` unchanged from prior session. 200 · HIT · widget rendered.

§ C — Staging Verification (live, build d766e10)

Page checks

URL	HTTP	Body check	Result
/	200	build d766e10	PASS
/products/indoor	200	lamparⒶRCH in H1	PASS
/products/outdoor	200	luxoⒶRCH in content	PASS
/products/lamps	200	NOSTALGIC in content	PASS
/products/residential	200	planoⒶRCH in content	PASS
/products/safety-controls	200	constⒶNT in content	PASS
/solutions/cold-storage-grocery	200	H1 + 7 zones + 11-row matrix	PASS
/solutions/data-center	200	H1 + 6 zones + 10-row matrix	PASS
/solutions/education	200	H1 + 6 zones + 14-row matrix	PASS
/solutions/healthcare	200	Coming-soon stub	PASS
/solutions/hospitality	200	Coming-soon stub	PASS
/solutions/industrial-manufacturing	200	Coming-soon stub	PASS
/solutions/warehouse-logistics	200	Coming-soon stub	PASS
/solutions/government-military	200	Coming-soon stub	PASS
/support/rebate-center	200	ee_widget_container + ag-grid columns	PASS

Redirect checks

Legacy URL	Destination	Code	Result
/solutions/safety-controls	/products/safety-controls	301	PASS
/verticals/cold-storage	/solutions/cold-storage-grocery	301	PASS
/pages/rebate-center	/support/rebate-center	301	PASS

§ D — Mega-Menu Reattachment

All 8 vertical links in `Header.astro` updated from placeholder `/solutions/` to canonical slugs. Safety & Controls link updated from `/solutions/safety-controls/` to `/products/safety-controls`. Rebate Center link (desktop + mobile) updated to `/support/rebate-center`.

Verified live on staging: Solutions mega-menu → Cold Storage & Grocery → `href="/solutions/cold-storage-grocery"` ✓

§ E — Token Audit

No new stray `#E3353C` values introduced. `--brand-red: #F32740` remains the only brand red in the codebase. All dark-surface tokens (`--bg-page`, `--bg-card`, etc.) remain in `brand.css` `:root` as hoisted in prior session.

Open Items

Item	Owner	Priority
5 stub verticals need Phase B content (Healthcare, Hospitality, Industrial, Warehouse, Government)	James / PM	Medium
Rebate Center interactive QA (ZIP filter, column toggle, sort, pagination)	QA	High — before prod cutover
Mobile breakpoint 375×812 visual check on all 14 new pages	QA	High — before prod cutover
<code>/solutions/</code> index page (currently redirects to <code>/solutions</code> nav anchor)	Dev	Low
