ARCHIPELAGO LIGHTING | LIGHTING REINVENTED

Lighting by Campus Zone

ARCHIPELAGO LIGHTING

Schools represent the single largest building stock for lighting retrofits in the United States. With ESSER funding still available and state energy mandates tightening, districts are upgrading to LED at unprecedented rates. ALG's selectARCH retrofit kits offer the lowest-disruption upgrade path — critical for schools that can only renovate during summer breaks.

ZONE 1

Classrooms

Troffers & Back-Lit Panels — planoARCH

- 2x2 and 2x4 form factors (drop-in grid)
- Flicker-free for student comfort & focus
- High CRI 80+ for accurate reading
- 0-10V dimming for presentation mode
- Watt/CCT selectable at installation

ZONE 2

Corridors & Common Areas

Wraps, Strips — selectARCH

- Low-profile surface mount
- Motion sensor compatible for energy savings
- High-traffic durability
- Continuous run options for long hallways

ZONE 3

Gymnasiums & Auditoriums

High Bays — lamparARCH (UFO & Linear)

- High lumen output for large spaces
- sensorBLE occupancy for off-hours savings
- surgeArmor electrical protection
- Watt selectable: 100W / 150W / 200W

ZONE 4

Restrooms, Kitchens & Maintenance

Vapor Tights — LV3P Series

- IP66 for wet/damp locations
- DampGuard moisture resistance
- Impact-resistant lens
- Linkable for utility areas

ZONE 5

Campus Exterior & Parking

Wall Packs, Area Lights, Flood — luxaARCH / cityARCH

- Full-cutoff dark-sky friendly
- Student safety: high-lumen security
- Dusk-to-dawn photocell
- DampGuard all-weather durability

ZONE 6

Retrofit & Quick Upgrades

LED Tubes & Retrofit Kits — tubulARCH / selectARCH

- T8 Type A (plug-and-play) for fastest swap
- T8 Type B (ballast bypass) for max savings
- selectARCH drop-in kits for troffer upgrades
- Summer-break installation friendly

ESSER & Funding Compatibility

ESSER (Elementary and Secondary School Emergency Relief) funding through 2026 can be applied to facility improvements including LED lighting upgrades that improve indoor air quality and ventilation environments. ALG's DLC-listed products (where applicable) also qualify for utility rebates, stacking incentives for cash-strapped districts. Extended finance terms further ease the capital burden.

Product Selection Matrix

ARCHIPELAGO LIGHTING

PRODUCT FAMILY	SERIES	WATTAGE	LUMENS	CCT	KEY FEATURES	CAMPUS ZONE
Troffer 2x2/2x4	planoARCH	25-50W	3K-6.5K	35/40/50K	DLC-listed (where applicable), flicker-free, control port, EB	Classroom
Back-Lit Panel	planoARCH	25-50W	3K-6.5K	35/40/50K	CRI 80+, watt/CCT selectable	Classroom
Wrap	selectARCH	20-40W	2.4K-4.8K	35/40/50K	Surface mount, motion compatible	Corridor
Strip	selectARCH	18-45W	2.2K-5.4K	35/40/50K	Continuous row, energy efficient	Corridor
UFO High Bay	lamparARCH	100-200W	15K-30K	35/40/50K	sensorBLE, surgeArmor, watt select	Gym / Aud
Linear High Bay	LLHB / Tiny-I	100-200W	15K-30K	35/40/50K	sensorBLE, quickAdapt, TAA	Gym / Aud
Vapor Tight	LV3P Series	25-80W	3.5K-10.8K	35/40/50K	IP66, DampGuard, linkable	Utility
Wall Pack	luxoARCH	20-80W	2.4K-10K	30/40/50K	Full-cutoff, DampGuard, photocell	Exterior
Area Light	cityARCH	70-300W	9K-42K	40/50K	High-mast, dark-sky, surge	Parking
Flood Light	luxoARCH	30-150W	3.6K-20K	40/50K	Athletic field capable, IP65	Sports
LED Tubes T8	tubulARCH	12-18W	1.6K-2.2K	35/40/50K	Type A/B/A+B, universal voltage	Retrofit
Retrofit Kit	selectARCH	25-50W	3K-6.5K	35/40/50K	Drop-in for existing troffers, DLC	Retrofit
Canopy	luxoARCH	30-75W	3.6K-9.5K	40/50K	Bus drop-off, covered walkways	Canopy
Emergency/Exit	SPECIALTY	2-5W	UL 924	Varies	90-min backup, self-test, code	All

Why Schools Choose ALG

BUILT FOR EDUCATION

Summer-Break Ready

Retrofit kits & plug-play tubes
install during breaks with zero
disruption to students

Budget Friendly

DLC-listed (where applicable)
rebates + project support
options help stretch limited
school budgets

Flicker-Free

Flicker-conscious performance
designed for comfortable
environments & reduces
student concentration

The Education Advantage

ARCHIPELAGO LIGHTING

Lowest-Disruption Upgrades

selectARCH retrofit kits drop into existing grid ceilings in minutes. T8 Type A tubes are true plug-and-play — no rewiring. Schools get an LED upgrade without construction crews or classroom shutdowns.

Campus-Wide Coverage

From classroom troffers to gymnasium high bays to parking lot area lights, ALG covers every space on campus. Single-source procurement simplifies bidding for school district purchasing departments.

Better Learning Environments

Flicker-free operation and high CRI create comfortable, well-lit classrooms. 0-10V dimming allows teachers to adjust light levels for presentations, reading, or testing. No buzzing, no warm-up delays.

10+ Years Maintenance-Free

50,000-hour L70 rated life means long-life LED performance reduces relamping cycles. That's real savings for maintenance teams managing tight budgets — and fewer ladder trips in occupied classrooms.

State Energy Mandates & Title 24

States across the country are tightening energy codes for public buildings, with California's Title 24 leading the way. ALG's DLC-listed fixtures (where applicable) with occupancy and sensorBLE wireless controls help schools meet these requirements without costly hardwired control systems. TAA/BAA compliance also covers federally funded school projects.

The ALG Advantage

- Quick Ship Available
- ⊙ BAA & TAA Compliant
- 📍 Strategic U.S. Locations
- 👤 Local Sales Support
- 📞 Inside Sales Support
- 📄 Free Product Literature
- 💰 Extended Finance Terms
- 📦 Ever-Expanding Line
