Lighting by Warehouse Zone

ARCHIPELAGO LIGHTING

Modern warehouses are complex facilities with diverse lighting needs — from 40-foot racking aisles to loading docks exposed to weather, from cold storage zones to front offices. ALG delivers purpose-built solutions for every zone, with sensor-ready controls that slash energy use in intermittently occupied areas.

ZONE 1

High-Bay Racking Aisles

UFO & Linear High Bay — LLHB / Tiny-I

- sensorBLE occupancy & daylight sensing
- Watt selectable: 100W / 150W / 200W
- 5000K high-visibility for safety
- surgeArmor 20kV/10kA protection
- 50,000hr L70 rated life

ZONE 2

Loading Docks & Receiving

Vapor Tight — LV3P Series

- IP66 DampGuard for moisture & weather
- Impact-resistant polycarbonate lens
- Linkable up to 8ft runs
- Watt/CCT selectable
- Tool-free quickAdapt mounting

ZONE 3

Shipping & Staging Areas

Linear Strips & Low Bay

- Continuous row mounting for uniform coverage
- High efficacy, motion sensor compatible
- Low-profile design for clear sightlines

ZONE 4

Office & Break Rooms

Troffers & Panels — planoARCH

- 2x2 and 2x4 form factors
- Flicker-free, CRI 80+
- Control-ready port, EB backup option
- DLC-listed (where applicable) listed

ZONE 5

Exterior Yard & Truck Court

High-Mast, Area Lights, Wall Packs — cityARCH / luxoARCH

- High lumen packages for large yards
- Full-cutoff dark-sky friendly
- Dusk-to-dawn photocell capable
- DampGuard all-weather durability

ZONE 6

Parking & Perimeter Security

Wall Packs, Flood, Canopy — luxoARCH

- Vandal-resistant construction
- Full-cutoff distribution
- Photocell and motion sensor options

ZONE 7

Cold Storage Zones

Walk-In Cooler Fixtures — SPECIALTY

- Rated to -40°F for freezers and walk-ins
- Driver-free AC design for cold reliability
- IP66 moisture sealed
- Instant-on — no warm-up delay

\$ ROI Snapshot

A typical 200,000 sq ft warehouse converting from HID to ALG LED High Bays can achieve significant energy and maintenance savings. Combined with sensorBLE occupancy controls, additional reductions of 40–60% are achievable in intermittently occupied racking aisles.

Why Specify ALG for Warehouses?

ARCHIPELAGO
LIGHTING

One Brand, Every Zone

From 40-foot racking aisles to loading docks to the front office, ALG covers every zone in a warehouse under one brand. Single-source procurement simplifies ordering, warranty, and maintenance.

Massive Energy Savings

High-efficacy fixtures (150+ lm/W) combined with sensorBLE controls deliver 40–60% energy savings in sensor-controlled zones. Payback in 12-18 months, then pure savings for 10+ years.

Built for Tough Environments

surgeArmor handles industrial electrical transients. DampGuard protects against loading dock moisture. IP66 vapor tights survive washdowns. Cold storage fixtures rated to -40°F.

Speed to Light

Quick Ship from strategic U.S. locations keeps your construction timeline on track. quickAdapt tool-free mounting cuts installation time. Extended finance terms ease upfront capital outlay.

E-Commerce & 3PL Facilities The ALG Advantage

The e-commerce boom is driving unprecedented warehouse construction — warehouses represent the single largest segment of commercial LED lighting at 25.4% market share. ALG's sensor-ready, quick-ship solutions are built for the speed and scale these projects demand. TAA/BAA compliance opens doors to government logistics and distribution facilities.
